SUMMARY

Machine learning engineer and co-author of **SlimLM** (ACL 2025). I work across small language models, multi-agent AI, and financial ML — building ML systems end to end, from feature engineering and model training to deployable, working interfaces. M.S. in Computer Science (Machine Learning) from Georgia Tech and an MBA in Finance.

PUBLICATIONS

SlimLM: An Efficient Small Language Model for On-Device Document Assistance

Thang M. Pham, **Phat T. Nguyen**, S. Yoon, V. D. Lai, F. Dernoncourt, Trung Bui.

Toward Reliable Evaluation of LLM-Based Financial Multi-Agent Systems

DMO-FinTech Workshop, PAKDD 2026.

PROJECTS (live demos)

Multi-Agent Finance Debate System [LangGraph]

Multi-agent system where specialized AI agents debate financial forecasts, challenge each other's reasoning, and converge on executive-level recommendations. Serves as the trace source for LLM-as-judge evaluation research.

Stock Direction Prediction Pipeline [XGBoost]

End-to-end ML pipeline for stock direction prediction: feature engineering, model training and hyperparameter tuning, deployed behind an interactive real-time dashboard.

FP&A Copilot — AI Variance Analyst [LLM + RAG]

Automated budget-vs-actual analysis combining anomaly detection with LLM-generated insights, producing executive-ready reports with traceable, auditable outputs.

TECHNICAL SKILLS

Languages: Python

ML / AI: PyTorch, XGBoost, scikit-learn, LangChain, LangGraph, RAG

Data: Pandas, NumPy

Tooling and Serving: Hugging Face, FastAPI, Gradio, Streamlit, Git

EXPERIENCE

Financial Analyst — Miodx

2018 – 2021

- Built financial forecasting models to project cash runway and support funding decisions.
- Analyzed spending data to identify cost trends and improve budget allocation.
- Managed project-level cost tracking for lab operations across multiple initiatives.

Product marketing — VoxyPAD App

2014 – 2016

- Performed market research, evaluated cost structures, and analyzed profitability and growth potential.
- Executed product feature design, UX optimization, and rigorous app quality assurance (QA) testing.

EDUCATION

M.S. Computer Science (Machine Learning) — Georgia Institute of Technology	· GPA 4.0	2025
MBA, Finance — California State University, East Bay	·	2018
BS, International Business Economics — Foreign Trade University	·	2015
